The New York Chamber of Commerce. in their thirty-second annual report, publish a careful review of the tea trade, giving special att-ation to some gross abuses calculated to carrail to se of tes. The

report says: "The demand for he priced rope mon tea is growing a certally, ies sening the use of, od and that teas, and the effort- of hetrals to supply customers will tea for price will result in less sing the consumption of teas. It encourages the importation or common tea, and must result disastronsly to the business. The producing countries can supply as unlimited quantity of poor ten that is really

Why will not the general public listen to a warning from so high an authority. and consider the great advantage to their own health and pocket, to be got by exer cising more thought in the selection of 10c. lb their teas. It is also to be noted that the chief sufferers from "TEA NOT FIT FOR CONsumption" are just those who can least afford to waste their money. As long ago as 1875 all of the facts about tea and its abuses were given in the Baltimore press by Mesers. Gillett & Co. They have been untiring in their efforts to open the eyes of the public to such abuses. Possibly their motive was their own profit, for all that time they were introducing their lie-No tea. All the same, the result has been a public benefit, and the favor won by a good tea such as He-No iproves that Baltimoreans, to a considerable 500 acres of land lying in and adjoining extent, have heeded the seasonable counsel of the Gillets

Your Grocer can supply you with He-No Tea at 75 cents per pound package: 46 cents per half pound package; or 10 cents per 1-4 pound package.

Should the trade of your locality decline to sell this Tea, further information can be had by direct application to W. C. & A B. STRONACH,
